

ASSEMBLY & INSTALLATION INSTRUCTIONS for SER-05S-PC

CAUTION: READ ALL INSTRUCTIONS CAREFULLY FOR SAFE OPERATION AND INSTALLATION.

CAUTION

Turn off the main power at the circuit breaker before installing the fixture in order to prevent possible shock.

GENERAL

1. All electrical connections must be in accordance with local and national electrical code (N.E.C) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician. Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustrations on the installation instruction.

ASSEMBLY AND INSTALLATION

1. Take the fixture out of the box.
2. Remove the decorative pan (9) from the back panel (10) by loosening two decorative screws (12).
3. Secure the candle (15) to each lamp base (16) by attaching the set screw (13) with supplied Allen wrench.
4. Pull the supply wires (2&3) and the house ground wire (4) out of the outlet box (1). Thread through large center hole in back panel (10).
5. Place the back panel (10) over the outlet box (1). Insert mounting screws (11) through the slots in the back panel and then tightly secure the mounting screws into the outlet box.
6. Make the wiring connections: connect the white supply wire (2) to the white fixture wire (7); connect the black supply wire (3) to the black fixture wire (6); connect the house ground wire (4) to the fixture ground wire (8) using wire connectors (5).
7. Secure the decorative pan (9) to the back panel (10) by attaching the two decorative screws (12).

INSTALLATION IS NOW COMPLETED
